950+ Architects & Engineers Cite Controlled Demolition at World Trade Center Towers on 9/11

**U.S. architect and 9/11 analyst speaks
in Australia, New Zealand and Japan for first time.**

Live presentations by Richard Gage, AIA
“9/11: Blueprint for Truth,” *Re-Examining the Destruction of the Three World Trade Center Skyscrapers*

Saturday, November 14 through Sunday, December 13, 2009

See below for tour cities, venues, dates and times.

S.F. Bay Area, USA—Internationally acclaimed 9/11 speaker and architect Richard Gage, AIA will present the evidence of the destruction of the *three* World Trade Center skyscrapers on 9/11 at eleven cities in three countries over five weeks throughout November and December. Gage will give a live dynamic multimedia presentation on behalf of more than 950 architects and engineers questioning the official story of what happened to these buildings on 9/11/2001. After careful examination of the forensic data omitted from the official account, these professionals are calling for a new independent investigation into these catastrophic events.

A practicing architect for more than 20 years, Richard Gage, AIA is the founder of Architects & Engineers for 9/11 Truth (AE911Truth). The organization provides evidence as to how the official FEMA and NIST reports provide incomplete and contradictory accounts of the towers' destruction. AE911Truth points in particular to the destruction of the *third* skyscraper, World Trade Center 7, a 47-story building which was *not* hit by an aircraft, yet came down at free-fall acceleration for more than 100 feet—per NIST. The implications are startling. The group bases its conclusions solely on forensic evidence, avoiding conspiracy theories altogether.

The Hard Evidence Tour includes three cities within Australia for Mr. Gage's speaking events beginning with Sydney and the next two events taking place the following week in Melbourne and Brisbane on Tuesday and Thursday respectively.

In New Zealand, Mr. Gage will have the opportunity to explore the details of this enigma on Radio New Zealand with Kim Hill on Saturday, November 21 at 9:00 a.m.

In Japan, Mr. Gage's trip will be highlighted by a meeting with the famous Senator Yukihiisa Fujita who is spearheading the monumental Japanese effort for 9/11 Truth.

AE911Truth's conclusions are shared by thousands of scientists; senior-level military, intelligence and government officials; pilots and aviation professionals; firefighters; scholars and university professors; 9/11 survivors and their family members; and other professionals around the world (www.patriotsquestion911.com, www.firefightersfor911truth.org, www.journalof911studies.com).

The 9/11 Truth Movement, which *Time* magazine in 2006 called “a mainstream political reality,” continues to gain momentum. As AE911Truth's own influence grows, Gage has embarked on more than 100 speaking events, covering 20 states and now 13 countries. The organization recently hosted exhibits at architectural conventions in San Francisco, Washington, DC and Richmond, VA, educating hundreds of architects and engineers, signing up over 100 of those architects and engineers onto the petition calling for a new investigation.
